

**Data Backup that is Safe  
Secure and Affordable**

**You deal with US! Not a call center!**

## How often do you think about your data?

We think about it daily because at PC WorX we get the panicked phone calls from clients that either forgot to back up, never backed up or relied on substandard backup solutions and suddenly it's all gone!!!

PC WorX has become a MOZY Pro Reseller, we have been searching for different options to offer to our clients for several years and finally found an affordable solution without sacrificing security or quality of service. Owned by EMC<sup>2</sup> - a \$113 billion dollar company that is at the paramount of the data business, Mozy was just the obvious choice for us to partner with, and now you benefit from that by having a worldwide service with a local point of contact!

The bottom line here is how much is your data worth to you? Ask yourself is my data being backed up consistently...or even at all? When was your last successful backup? All these questions should make you break out in a sweat if you can't answer them with certainty. If you do not backup your data at all because you have had no failures I can tell you that there is no question it WILL happen and may be no fault of your own.

**The question truly is can you NOT afford to have a backup solution!**

### COST BREAKDOWN

**ONE TIME \$40 SETUP FEE- THIS GETS YOU COMPLETE BACKUP SETUP + INITIAL BACKUP + VERIFICATION EMAILS FOR 1st YEAR\***

#### Data Tier Costs/Month

**(add \$2/mo if backing up a Server)**

Typical for SMB → 10GB Data = \$10/mo ← Typical for SMB

- 10GB Data = \$10/mo
- 15GB Data = \$14/mo
- 20GB Data = \$17/mo
- 25GB Data = \$20/mo
- 25GB+ = by Quote\*\*

**\*You have the option of email verifications after the first year for \$15 annually**  
**\*\*large storage discounts available by quote only**

#### Who uses Mozy Pro?

**GE - SUBWAY - Boeing - Louis Vuitton - American Red Cross - Paramount Pictures - YB - Alcoa...About 70,000+ businesses in all!**

The unique thing about this service is that we take care of everything for you and we are the point of contact for you as well. Anything that comes up we will take care of it. PC WorX is backed by Mozy's top notch technical support as well.

Don't let your data be at risk. While mechanical external devices are a good thing to have they can fail or get stolen Mozy, by EMC<sup>2</sup>, backs up over 92Pb (petabytes) a day that's over 100 million 500GB hard drives/day! And adding more storage capacity each day. Is your data safe? It can be!

## Something to think about!

- 31% of PC Users have lost all their files due to events beyond their control.
- 60% of companies that lose their data will shut down within 6 months of event.
- Every week 140,000 hard drives crash in the United States.
- Simple drive recovery can cost upwards of \$3K & is not guaranteed.
- 34% of companies fail to test their tape backups, and of those that do, 77% have found tape backup error.

*"I have been hearing a lot about Mozy and done my research....it seemed like the most likely choice to me, now that I have someone to call that's local.....it's a no brainer!"*
